# GENOME EDITING: BIOMEDICAL AND ETHICAL PERSPECTIVES

### **International Conference**

Belgrade, 20-21 August, 2017

**PROGRAM TIMELINE** 

## International Scientific Committee

### VojinRakić, PhD

Director of the Center for the Study of Bioethics

### **Arthur Caplan, PhD**

New York University's Langone Medical Center Associate Member of the Center for the Study of Bioethics

### John Harris, PhD

University of Manchester Associate Member of the Center for the Study of Bioethics

### Mildred Z. Solomon, EdD

President and CEO of The Hastings Center Advisory Board of the Center for the Study of Bioethics

### Nicholas Agar, PhD

University of Wellington
Associate Member of the Center for the Study of Bioethics

### **Anders Sandberg, PhD**

University of Oxford Associate Member of the Center for the Study of Bioethics

### Rob Sparrow, PhD

Monash University
Associate Member of the Center for the Study of Bioethics

### KatrienDevolder, PhD

University of Oxford
Associate Member of the Center for the Study of Bioethics

### **Brendan Parent, PhD**

**NYU School of Professional Studies** 

### Josephine Johnston, PhD

The Hastings Center

### Carolyn Neuhaus, PhD

NYU School of Medicine

This document is a preliminary conference program. Modifications and adjustments will be made in due course. If you have any further inquiries concerning the schedule, please contact us at <a href="mailto:office@csb.eu.com">office@csb.eu.com</a>.

## 20<sup>th</sup> August 2017

Time	Conference hall A		
8:30-9:00	Registration (Coffee available)		
9:00-9:45	Opening addresses (TBC)		
	Vojin Rakić, Center for the Study of Bioethics		
	Arthur Caplan, New York University's Langone Medical Center		
	Mildred Z. Solomon, The Hastings Center		
	Mladen Šarčević, Minister of Education, Science and Technological Development		
	Vladimir Kostić, President of the Serbian Academy of Sciences and Arts		
	Vladimir Bumbaširević, Rector of the University of Belgrade		
9:45-11:30	Panel I: Lectures of keynote speakers		
	Chair: Mildred Z. Solomon, The Hastings Center		
	John Harris, University of Manchester		
	Genetic Inheritance, Future People and Future Worlds		
	Arthur Caplan, New York University's Langone Medical Center		
	Mice, men and supermen— where ought the ethical focus be?		
	John Harris, Arthur Caplan; Discussion and confronting opinions		
11:30-12:00	Coffee break		
12:00-13:30	Panel II: Impact of GE on future generations		
	Chair: Arthur Caplan, New York University's Langone Medical Center		
	Nicholas Agar, Victoria University of Wellington		
	Why we should defend contemporary genetic medicine as eugenics		
	VojinRakić, Center for the Study of Bioethics		
	Genome editing: moral considerations for future generations		
	Rob Sparrow, Monash University		
	People, progress, and products		
13:30-14:45	Lunch break		

### 20<sup>th</sup> August 2017

<b>T</b> !					
Time	Conference hall A	Conference hall B			
14:45-16:15	Panel III: Values and Genes	Panel IV: Politics of GE			
	Chair: <b>Nicholas Agar</b> , Victoria University of Wellington	Chair: <b>Daniel Andler</b> , SND, Université Paris- Sorbonne			
	Josephine Johnston, The Hastings Center Editing the Stork: Gene Editing and the "Good Parent"	Jana Zuscinova, European Parliament Good Governance of Human Genome Editing: Political Responsibility			
	Mair Crouch, University of Glasgow Genetic modification and the welfare of the child	Joanna Smolenski, City University of New York Gene Drives and Genome Modification in Non- Human Animals: A Concern for Informed Consent?			
	Igor Milinkovic, University of Banja Luka Human genetic engineering, human dignity and law: national and international perspectives	Anders Nordgren, Linköping University First-in-human trials on genome editing: strategies for handling uncertainty about benefit and uncertainty about harm			
16:15-16:45	Coffee break	Coffee break			
16:45-18:15	Panel V: GE in non-humans	Panel VI: GE for human enhancement			
	Chair: <b>Brendan Parent</b> , NYU School of Professional Studies	Chair: <b>Christoph Rehmann-Sutter</b> , University of Luebeck			
	Carolyn P. Neuhaus, NYU School of Medicine Genome editing with CRISPR in non-human organisms: What's new and where are we headed?	Lucia Galvagni, Bruno Kessler Foundation Human enhancement and genome editing technologies: any role for religion in the debate?			
	Marko Ahteensuu, University of Turku Genome Editing and Species Conservation Aims: Naturalness in Facilitated Adaptation and Assisted Migration	Toni Pustovrh, University of Ljubljana Human Enhancement through Genome Editing: Some Glimpses of the Future Bioethical and Governance Landscapes regarding the use of Synthetic Biology Tools to Augment Our Capabilities			
	<b>Gardar Arnason</b> , University of Tübingen The ethics of genome editing in non-human primates	Alexandre Erler, University of Hong Kong Genome editing at the intersection of prevention and enhancement			
18:15-19:15	Panel VII: Young Researchers (Hall D)				
	Chair: <b>Dejan Pejović</b> , CSB, Belgrade <b>Jelena Dimitrijević</b> , CSB, Faculty of Philosophy, Belgrade University <i>Tailoring our biology with molecular scissors: Gene editing and evolution</i>				
	<b>Ursela Barteczko,</b> CSB, Belgrade Metabolic Engineering of Humans				
	<b>Danilo Polić,</b> CSB, Faculty of Philosophy, Belgrade University  Are we obligated to use CRISPR/Cas9 or any other emerging technology for that matter?				
19:30	Dinner				
	-				

## 21<sup>st</sup> August 2017

Time	Conference hall A	Conference hall B	Conference hall C
9:00-10:30	Round table: Discussion on Genome Editing by the Members of the International Scientific Committee		
10:30-10:45	Coffee break		
10:45-12:15	Panel VIII: Discussing the debate	Panel IX: GE of the Germline	Panel X: Redefining the notions of disease, benefit and harm
	Chair: <b>John Harris</b> , University of Manchester	Chair: <b>Rob Sparrow</b> , Monash University	Chair: <b>Katrien Devolder</b> , University of Oxford
	Anders Sandberg, Future of Humanity Institute, Oxford Martin School, University of Oxford Seceding from humanity? The ethics of technologically mediated speciation	Nadia Primc, University of Heidelberg Manipulation in human germ lines: A severe intervention into human nature?	Milena Ugrin, Maja Stojiljkovic, Sonja Pavlovic, University of Belgrade Gene editing meets gene therapy of beta thalassemia syndromes
	Oliver Feeney, NUI Galway, Ireland Editing the debate: critically assessing the normative reactions to gene-editing	Christoph Rehmann-Sutter, University of Luebeck The Germline as Intergenerational Relationship	Peter Sýkora, University of Sts. Cyril and Methodius Analysis of the gene therapy concept in the context of genome editing
	Marta Spranzi, Center for clinical ethics, Cochin Hospital (Paris) TBA	Seppe Segers, Heidi Mertes, Guido Pennings, Ghent University Genome editing and in vitro gametogenesis: the dawn of designer babies?	Milica Prostran, University of Belgrade Biosimilars: switching and interchangeability
12:15-12:45	Coffee break	Coffee break	Coffee break
12:45-14:15	Panel XI: Regulating GE	Panel XII: Why edit embryos, if we can select them?	Panel XIII: Identity and disability
	Chair: <b>Josephine Johnston</b> , The Hastings Center	Chair: <b>Anders Sandberg</b> , Future of Humanity Institute, Oxford Martin School, University of Oxford	Chair: Marta Spranzi, Center for clinical ethics, Cochin Hospital (Paris)
	Daniel Andler, Université Paris-Sorbonne Towards a well-founded and realistic policy for genome editing technology	Katrien Devolder, Thomas Douglas, University of Oxford Gene editing, genetic selection and the benefit to the child	Bjørn Hofmann, The Norwegian University of Science and Technology (NTNU) at Gjøvik and The University of Oslo The gene-editing of Super- ego

## 21<sup>st</sup> August 2017

Time	Conference hall A	Conference hall B	<b>Conference hall C</b>
12:45-14:15	Panel XI: Regulating GE	Panel XII: Why edit embryos, if we can select them?	Panel XIII: Identity and disability
	Rachel Thompson, Michael McNamee, Bebhinn Donnelly-Lazarov, Swansea University Towards harmonization: Key concepts in international governance of biobank genomic research	Blanca Rodríguez López, Universidad Complutense de Madrid Advantages of genetic manipulation over selection in the context of Procreative Beneficence	Ivars Neiders, Riga Stradiņš University How Mitochondrial Replacement Affects Identity
	<b>Quinn Walker</b> , Stanford Law School Requiring Reversal: Gene Drives and the Impossibility of Regulation	HerjeetMarway, University of Birmingham Procreative justice, genetic selection and genome editing in the case of fair skin	Martin Šolc, Petr Šustek, Charles University Gene editing in Down syndrome patients from the perspective of identity
14:15-15:45	Lunch break	Lunch break	Lunch break
15:45-17:15	Panel XIV: Equity and Equality Chair: Oliver Feeney, NUI	Panel XV: GE and the mind: past, present and future  Chair: Carolyn P. Neuhaus, NYU	
	Galway	School of Medicine	
	<b>Hon-Lam Li</b> , Chinese University of Hong Kong	<b>Brendan Parent</b> , NYU School of Professional Studies	
	Genetic Enhancement and Fairness	Using Psychology to Inform Ethics of Germline Engineering	
	Nancy M. P. King, Wake Forest School of Medicine Gene Editing: Who (Really)	<b>Derek So</b> , McGill University CRISPR in the Imagination: Concepts of Human Genome	
	Needs It?	Editing, From the 1930s to the Present	
	Erika Kleiderman, Bartha Maria Knoppers, McGill University, Montreal	Maurizio Balistreri, University of Turin Genome editing and reproduction	
	Gene editing in sport: the rise of the 'super athlete'?	based on model embryos	
17:30	Touristic tour through Belgrade
